# PUT THIS MACHINE TO WORK IN YOUR SHIPPING ROOM

**Y**es!

Put it to work in your shipping room for a week without cost or any obligation on your part to buy. A no-cost demonstration. If the machine cannot prove to you conclusively in a week that your shipments can be "Ideal" stencil marked in less time, with less labor, at a big saving in money and assurance against loss—you don't need it. We know it will pay for itself in a few months. This has been proven. When you mail the card, will you please select the size marking you prefer?
